

WATER TREATMENT INNOVATION SPECIALIST JOINS QUEST WATER ADVISORY BOARD

Vancouver, British Columbia, September 29, 2016 - Quest Water Global, Inc. (QWTR) ("Quest" and/or "Quest Water" and or "Company"), an innovative water technology company, and developer of the solar-powered water purification and desalination technology AQUAtap™ and the WEPS™ Atmospheric Water Extraction and Purification System, is pleased to announce that water treatment innovation specialist Richard A. Mest has joined Quest Water's Advisory Board. Richard is the Past President of the Water Quality Association (WQA) and a member of the Board of Directors of the Water Quality Research Foundation (WQRF).

Quest Water's Executive Vice President and co-founder, Peter Miele commented, "We are very pleased that Richard A. Mest has agreed to join Quest Water's Advisory Board. He is an incredibly well respected leader in water treatment innovation and his expertise will be invaluable to the future development of the Company and our project partners globally.

Richard is President of Master Water Conditioning Corporation, a manufacturer of a variety of water treatment products, services and technical support for residential, commercial and industrial applications. Richard joined Master Water Conditioning in 1978.

Mr. Mest is also a member of the Water Systems Council where he serves on the Board of Directors as Vice President. He previously served on the National Sanitation Foundation (NSF) task force for the development of testing protocol for the Water Softener testing standard 44 as well as the Water Quality Association's Technical, Ion Exchange and Education committees. He is currently an active member of the Water Quality Association's Gold Seal Steering Committee, Federal Government Affairs and Chairs the Events Committee. Richard recently received the Water Quality Association's "Award of Merit" and "Key Award" for his dedication to educating members of the water industry.

About Quest Water Global Inc.

Quest Water Global Inc., and its wholly-owned operating subsidiary Quest Water Solutions Inc., is an innovative water technology company that provides sustainable and environmentally sound solutions to water scarce regions. We use proven technologies to create economically viable products that address the critical shortage of clean water in water-scarce regions and developing countries. Quest's goal is to address the vital issue of water quality and water supply by providing an alternative, sustainable source of pure water at the smallest possible environmental cost, while becoming a leading provider of decentralized, turnkey solutions using alternative energy for the production, purification, desalination, and distribution of clean,

potable water. For more information on Quest Water visit our website at www.QuestWaterSolutions.com

Notice Regarding Forward Looking Statements

This press release contains projections and forward-looking statements, as that term is defined under applicable securities laws. Statements in this press release, which are not purely historical, are forward-looking statements. These statements are only predictions and involve known and unknown risks which may cause actual results and the Company's plans and objectives to differ materially from those expressed in the forward-looking information, including: negative results from the Company's field operations; the effects of government regulation on the Company's business; risks associated with the Company's ability to obtain and protect rights to its intellectual property; risks and uncertainties associated with the Company's ability to raise additional capital; loss of management; and other factors beyond the Company's control. Although the Company believes that the expectations reflected in the forward-looking statements are reasonable, it cannot guarantee future results, levels of activity or performance. Further, any forward-looking statement speaks only as of the date on which such statement is made, and, except as required by applicable law, the Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for management to predict all of such factors and to assess in advance the impact of such factors on the Company's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statement. Readers should also refer to the risk factor disclosures and other disclosures outlined in the Company's periodic reports filed from time-to-time with the Securities and Exchange Commission on Edgar at www.sec.gov and with the British Columbia Securities Commission on SEDAR at www.sedar.com.
